

In response to Monique's application:

I liked it. I liked the colours and the boxes on the home page that the users can click to take them places.

Are you going to add pictures to them or are you going to leave them empty? I think pictures would be nice.

And how can I add multiple farmers? Must I reload the page or go back to the home page every time?

I think it would be better if the page reloaded after the farmers were added or something to that effect.

Overall, I think the UI is a bit empty, but if that's the look you were going for, then I think it's fine.

A handwritten signature in black ink, appearing to read 'Malerato Seboni'.
